Vol. 114 No. 10 | Cameron, Milam County, Texas Monday April 16, 1973 | 8 Pages Today

Now With F.M.L.

NOW THANKS SUBSCRIBERS. . . .

CAMERON - Mrs. Stella McCall, Franklin Glaser, Mrs. Henry Siebman, Mrs. Delia Lewis Burkeen, Mrs. M. B. Wheeler, Milton J. Falkner, Mrs. Annie Hodges, Frank Hanel, John Lott, Veola Swain, Alphonse Mikulec, Mrs. J. J. Hall, R. L. Batte Jr., Sam Brewer, Mrs. M. L. Gunn, H. P. White, J. G. Chandler, Lawrence McClaren, Marvin Hickman, Dr. Gus Evans Jr., Otto F. Schulz, Mrs. Alma Engelke, Mrs. Bill Marek, Mrs. Oscar Patillo, Homer L. Conely, Dean White, Mrs. M. M. Whitley, Franklin Glaser, Eugene Tomek, Leo Moraw, George W. Jones, John Jistel, Miss Mary Mode, Mary Burns;

Also, Lillie Hundl, Albert Edmonds, Coca Cola, Mrs. Carrie Gunn, Charles Wickersham, Mrs. E. P. Werner, Rev. John Geiser, Alvin Eisfeldt, Mrs. Albert Gerick, Ernest Kunchick, Bentley Hause, Willis Vogelsang, A. W. Rettig, Mrs. Dave Hemenas, Farm & Ranch Store, Newton Memorial Hospital, St. Edward Hospital, Mrs. Fred Jackson, O. W. Whittington, Claudia Stedman, James Woodum, Mrs. Henry Tomasek and Mrs. Gillis Graham.

BUCKHOLTS - Doyal Arnold, Mrs. Joe F. Hollas, Lawrence Vrazel Jr., E. C. Boecker, Mrs. Sidney Culp, and Mary Walschak.

ROGERS - Mrs. Ernest Lorenz, G. H. Beckhusen and James Glaser.

ROCKDALE - Mrs. Tom H. Turner, Rockdale State Bank, and Jesse Holloway.

ROSEBUD - FRANK Skala Jr.

MILANO - Mrs. T. E. Walker and Mrs. William H. Nelson.

BEN ARNOLD - Lee Roy Folschinsky.

BRYAN - T. D. Fisher and Lois P. Gray.

WACO - Willie Ray Boecker and R. E. Michalka.

DALLAS - Al Strzinek.

LAMPASAS - Fred Carroll.

McGREGOR - Dr. Tommy Barton.

HOUSTON - Mrs. A. A. Johnson.

DENTON - O. J. Curry.

BREMOND - Victoria Twiggs.

ELGIN - Speck Elliott.

KINGSLAND - I. L. Foster.

NEW BRAUNFELS - Arno Scholz.

ALPINE - Mrs. Vernon McIntree.

DAVILLA - T. N. Hine.

LOUISIANA - Dr. Tom Lutner.

WASHINGTON - John Mikula.

NEW YORK - Ralph Duffy.

AUSTIN - Pat Westbrook and H. D. Pringle

CIVIC AWARD - Ed Laywell, left, is congratulated by Jim Lafferty at the presentation of the McCullin Civic Award to Laywell at the Chamber of Commerce banquet Thursday night. Laywell was cited for his extensive work with youth in agricultural fields.

Calvin Cobb To Head Local School Board

Calvin Cobb will again head the local school board following his election by acclamation at a regular meeting Wednesday evening. Mrs. Betsy Brown is vice president and Bill Hornung will retain his position as secretary.

The elections followed canvassing of the votes in last Saturday's school trustee election.

New trustees Mrs. Carol Barr and John Henderson Jr., and re-elected trustee Forrest Sapp were sworn in following the canvassing.

In other business, the board discussed hiring a principal for Ada Henderson and Ben Milam to replace Arnett Zelisko who is resigning. Applicants will be interviewed at the May board meeting.

The board voted to raise the tuition fee for out-of-district students to $170 a year, for students from non-high school districts, providing the tuition is paid for the past year.

Trustees also discussed getting a different architect to work with the board on a building program. Supt. D. R. Dodson emphasized to the board that present buildings are inadequate for present school population and will be even more so when all 5-year-olds start kindergarten in 1974.

There is also a problem about housing the special education group, he added. He told trustees that there is no choice about things like finding four or five additional classrooms for kindergarten.

The board discussed raising the school tax rate up to $1.50 per $100 valuation, which would provide an additional $125,000 a year to use for building. However no action was taken on this.

Trustees will attend a special called meeting to discuss a building program with an architect.

Other discussions during the three-hour meeting included the need for a tennis court at junior high school and another one at the Yoe campus.

The board also moved to approve payment of Mrs. Patsy Nance's way to San Diego accompanying Gary Fuchs to the International Science Fair in May.

The following teachers were hired for another school term:

Willie Jean Henderson, Emma McDermott, Henriem McIntosh, Cecil E. Anderson, Viola Biggs, Roger Williams, Mary Arthur, Ima Batte, Courtney Nelson, and Marilee Thweatt.

Waste Disposal Problem Aired At Public Hearing

Rockdale City Manager N. E. Alford appeared before county commissioners at a called public hearing to discuss the disposition of county revenue sharing funds Thursday morning.

Alford came to discuss the possibility of the county's organizing a central solid waste disposal site, and asked if the funds could be used in that connection.

Alford said Rockdale has been offered an abandoned mine pit by Alcoa, and this could be used by Rockdale and Thorndale. Commissioners noted that it would be a long haul for Cameron and Buckholts.

He said the site would be used by Rockdale, but it needed an all-weather road to the location. Commissioners agreed to fix the road to the disposal site.

Alford said Rockdale was "in trouble" with the State Water Control Board and the Air Control Board, and needed a new disposal site for waste.

Discussion was held on the possibility of having a central dump ground between Cameron and Buckholts, however, County Judge O. B. Harden said Cameron Mayor Gene Blake said the city's present disposal site was good for about five years.

Judge Harden read to Alford a letter from the state health department received in 1970 about conditions in the Milam County jail not meeting specifications of the department. Harden noted that pressure is being applied also by the Civil Liberties Union to update the jail.

Commissioners had earlier earmarked revenue sharing funds for a new jail, and have purchased property for the jail. Some discussion was also held on whether the present building on the lot could be used or if it should be torn down. No decision was reached.

Area Roundup

Rabid Bat Found

GATESVILLE

A rabid bat was found in the area near the Gatesville Country Club, a veterinarian reports. He advised all parents to warn young children to shun wild bats, rodents, skunks and small animals of any type. "All this type of wildlife should be left alone," the vet said.

Capt. Bliss Honored

TEMPLE

More than 450 persons turned out Thursday night to honor former POW Capt. Ronald Bliss and the families of Temple and Belton men who died in action in Vietnam. Bliss spoke of his caputre, his years in prison, his future and the future of Vietnam. "I have not given as much as some of the people represented here tonight by parents and loved ones have," the ex-prisoner said.

New High School Studied

BELTON

A new Belton High School building study, which may result in a $2 million plus bond issue, was authorized at the April meeting of the school board. The superintendent was instructed by the board to obtain construction costs for the proposed new high school building to be presented at the May board meeting. The board voted that an educational program for the public on the needs of more classroom space will begin as soon as cost figures are available.

Falls Counts Revenue Sharing

ROSEBUD

County Commissioners of Falls County accepted a revenue check for $66,527, and deposited it in the city's revenue sharing trust fund account. The city of Rosebud received a check for $7,394 for the first quarter. During 1972, two paymentstwo payments of revenue sharing money were received by Rosebud, amounting to a total of $28,065. The funds are earmarked for a new sewer line, new sanitary landfill and a new police car.

Weather Shortens Tourney

SOMERVILLE

The weather played havoc with the Somerville Bass Tournament last weekend, turning cold Sunday and driving fishermen in. The prize bass weighed five pounds and one ounce and was brought in by Reele Morrison who plays pro football for Cincinnati. Frist prize was won by Kleninski and Clayton Lee with a total weight of 43.3 pounds. They won a $2,000 savings bond and two plaques.

Cold Shatters Records

GEORGETOWN

Ice and frost on April 10 with 29 degrees was the coldest registered on that date since 1928. Agriculture officials believe damage to tender spring trees and plants will be considerable. Early travelers with exposed vehicles were scraping ice off the windshields just like they did in January.

Tot Suffers Scalding

ROCKDALE

A two-year-old girl was hospitalized here after being burned when she fell into a bathtub of hot water. An aunt said the child was playing when the accident occurred. A neighbor rushed the child to a Rockdale hospital where the doctor said the youngster had second-degree burns on about 30 per cent of her body. However, she was pronounced in good condition.

Ed Laywell Wins Civic Award

The McCullin Civic Award for 1972 was presented to Ed Laywell as the climax of the annual Chamber of Commerce banquet held in National Guard Armory Thursday night.

Laywell, active in youth work for more than 15 years, was presented the trophy by the 1971 recipient, Jim Lafferty.

Laywell, a partner in Marek-Burns-Laywell Funeral Home, has been chairman of the Chamber Agriculture Committee, chairman of the Milam County Junior Livestock Show, and active in 4-H work.

He also is a Chamber director, member of the Cameron Planning Commission, a director of Folk Fete and a former director of the Texas Youth Development Foundation.

The crowd filled the Armory, and enjoyed an informal barbecue meal at tables decorated with boots, ropes, cowboy hats, and Texas blue bonnets on red checkered cloths.

L. W. Stroup Jr., first Chamber vice president, introduced outgoing president Don G. Humble. Humble then presented Gene F. Blake, incoming Chamber president who made a short address citing the progress Cameron is making, and praising Chamber efforts in the city's growth.

Entertainment was introduced by Gene Smitherman, master of ceremonies. "Texas in Word and Song" was presented by Mrs. Maurina Corley, and included stories and songs about the old West. Mrs. Corley was joined in some of the singing by the audience.

She introduced the Salty Square Dancers, who presented two dances with Mark Towery as caller.

An informal coffee followed the banquet program.

Displays were organized and shown by various school groups, including FFA, FHA, Distributive Education, and 4-H. Displays were also arranged by Hensley-Russell, Stylehome Mfg. Corp., and Royal Seating Corp.

Israel's Economy Based On 'Brain Power'

By Susan Poyes

TEL AVIV

To make up for its lack of natural resources, like oil, coal and valuable minerals, Israel has been building an economy based on "brain power."

Now, 25 years after the establishment of the state of Israel, this trend is more evident than ever before.

It was one of the country's founders and its first president, Chaim Weizmann, who urged the exploitation of Jewish intellect to replace to the poverty of the soil.

This, he thought, could be done by setting up sophisticated industries and concentrating on specialized crops.

But perhaps even Weizmann, himself a noted scientist, could not anticipate Israel's successful exports in fields ranging from avocado pear to jet planes.

It was scientific farming that blazed a trail from dire austerity no more than two decades ago to self-sufficiency in many of its requirements today -- not only in vegetables and fruit, but also in some computers and nuclear reactors.

Once, Israel's foreign currency revenue came only from the sale of its citrus fruit. Today, skill, brains and modern technology have changed all this.

Within the past few years, Israel has become the world diamond capital, although not a single stone has ever been mined here.

The profit comes from the added value derived from cutting and polishing the rough stones. Sales of sparkling gems alone reached $386 million in 1972 and is expected to be $500 million this year.

One of the best examples of how Israel combines skill and brains is found at a little laboratory at the Weizmann Institute of Science in Rehovot, south of Tel Aviv. There, scientists are producing one of the world's costliest liquids, a few drops of which fetch hundreds of dollars.

These drops are heavy isotopes of oxygen used as "tracers" in a wide range of research work.

Unlike many other countries, Israel has harnessed farming through science, since it had no need to overcome a peasant class with deep-rooted traditions.

Israeli villagers, especially in the kibbutzim (communal settlements), had an open mind to any new ideas and offered no resistance to new crops, new methods or centralized planning.

This is how in a few years it developed farm produce designed to meet the requirements of specialized markets in Europe and elsewhere.

For example, Israel needed this type of farming to become a world supplier of goose liver, which is being sold to France, the traditional producer of pate de foie gras.

Some villages specialize in breeding the fowl, jocularly called here the geese which lay the golden eggs.

They have increased their earnings from $500,000 in 1967 to two million dollars last year. Israeli farmers even sell tulips to Holland, exploiting their country's mild climate.

Nobody would be surprised if Israel announced it was manufacturing its own jetplanes.

Kubiak Reports Insurance Bill

Rep. Dan Kubiak reports that the Texas House has taken its first significant steps toward reform of the automobile insurance system in Texas.

"By an overwhelming vote," Kubiak said, "we approved a modified plan of the so-called 'no-fault' insurance system. We hope this bill, if finally approved by the Senate and signed by the Governor, will lead to reductions in liability insurance premiums."

The plan was written and sponsored by the State Bar Association after many months of study, he added.

"No-fault" means that limited liability for medical expenses and loss of work benefits would be paid to persons hurt in accidents -- regardless of who was at fault and to what degree they were at fault in the accident.

The plan sets up maximum payments under the no-fault system of $2,500. The plan still permits, however, damage suits for amounts greater than the $2,500 no-fault payment.

The coverage would be optional.

"The proposal we adopted, I know, is not the complete answer to insurance reform," Kubiak said, "but we must gain the experience of trying this system. Also, State Insurance Board Chairman Joe Christie plans very shortly to present to the Legislature another package of insurance reform proposals -- all also aimed at cutting rates while still insuring adequate coverage."

Chairman Christie's proposals will deal with creating a system of competitive rates in the Texas insurance industry instead of having all rates set by the State Board.

"I think this concept of competitive rates will prove to be the real basis for total insurance reform," Kubiak said.

Now A 3-Block Mall?

Projected plans are for leveling all but any potentially useable portion of the old McLane Co. warehouse facing the east courthouse side.

What could be done is not only construction of a new jail and off-street parking as county officials wisely plan, but additional landscaping of the area with a new low-line jail building where the warehouse now stands and, in effect, a third block to the mall area.

Combining the new mall block, the treed courthouse block and a landscaped jail block, between old and new, would extend the mall to both sides of the courthouse square and increase beauty, parking and downtown focal point many times.

As these things fall into place, the dimension of green tree, shrub, grass and walkways will be that much more appealing to everyone who sees them and, of course, appreciates them.

These major developments continue because now city and county are working together even beyond the immediate urban renewal area, a continuous improvement that is an excellent example of how various governmental elements can build together.

Differently And Well...

The Cameron Chamber had a fine display Thursday night of agri-business and industrial wares found in Cameron plants or developed by Cameron organizations.

In another unique program, square dancers and vocal entertainment told a lot about Texas tradition, the Wild West and real cowboy background.

About 250 to 300 turned out in the first Chamber dinner function in the National Guard Armory.

It was rather informal and oriented to that combined spectrum of economic, civic and cultural development which is specifically the Milam area's. And it seemed to go well with the audience.

Cameron continues to show it can do things differently and well.

Toyko Is Now World's Most Expensive City

By Geoffrey Murray

TOKYO

One of the biggest post-war increases in consumer prices has been reached in Tokyo, underlining its unenviable position as the world's most expensive city.

The prime minister's office reported the price index rose 2.3 per cent in March and was nine per cent above the level of a year ago.

Both figures were the highest since the years immediately after World War II when a defeated Japan was gripped by rampant inflation.

The prime minister's office also reported the national consumer price index rose 0.8 per cent in February and stood at 6.7 per cent over a year ago.

With warnings that the inflation situation has become dangerous, the government is moving quickly to tighten the money supply, cited as one of the major reasons for the price surge.

The Bank of Japan raised its official discount rate last Saturday by 0.75 per cent to five per cent. It was originally scheduled to discuss the increase today.

The relatively drastic increase in the bank rate was seen by observers as a measure of the apprehension felt by monetary authorities over the present overheating of the Japanese economy.

A United Nations survey earlier this year found Tokyo to be the most expensive city in the world in which to live, and the latest figures appear to indicate the Japanese capital is running well ahead of its nearest opposition.

The economic planning agency has just released its top 20 items showing the largest price increase over the past year.

Vegetables were first with a 33 per cent rise. Processed foods rose almost 18 per cent and meat 16 per cent. They were followed by house maintenance (13.2 per cent) clothing (12.6) and milk and eggs (12.4).

The government cites several reasons for this.

First is the increase in prices of raw materials and world shortages in some commodities -- such as soybeans, which are a vital element in virtually every Japanese meal.

This shortage has led to speculative buying and selective selling by major distributors. Recently, several major commodity markets were closed down for several days to curb speculation.

On perishable foods the government says the price rises also reflect a recent national railways go - slow and strike campaign.

The price increases have made life even more difficult for Tokyo's much-harrassed 11 million residents, already plagued by pollution, overcrowding and lack of amenities.

There have been continuous and major increases in the price of land and housing.

The prime minister's office said rents had increased by 11.7 per cent over a year ago. The economic planning agency's room rental index now stands at 113.4 against a base of 100 in 1970.

This is one reason why Tokyo's suburban sprawl keeps growing as residents seek to escape from the city for health and financial reasons. Some workers in central Tokyo now live up to 50 miles away.

Temple Man Charged For Tax Returns

B. C. Gillon, age 47, 2005 East Avenue I, Temple, Texas, was indicted by a Federal Grand Jury meeting in Austin, charging him with eight counts of preparing false income tax returns.

Gillon was one of two return preparers who were arrested on March 23, 1973, by Special Agents of the Internal Revenue Service in a major crackdown by Internal Revenue Service on unethical return preparers.

The indictment charges Gillon with aiding and assisting in the preparation of eight false returns for seven taxpayers living in the Temple area. The indictment charges that Gillon prepared false income tax returns for each of these clients by willfully overstating his clients' itemized deductions on each of the income tax returns.

Dateline Austin

Insurance Rates Dipping

By Bill Boykin

Car and home owners had encouraging promises of lower insurance rates from high - level sources last week.

*Gov. Dolph Briscoe threw his weight behind a modified form of competitive auto to insurance rating, subject of an unsuccessful special legislative session last year.

*The State Board of Insurance issued new rules and regulations which it pledged would bring lower rates for fire, homeowners and extended coverage policies.

Basically, what both plans would do is permit companies to deviate from the standard rates issued annually by the Board.

A bill introduced in the House and Senate undertook to permit the auto deviations -- either below or above the standard rate on showing that companies could make the change without endangering their solvency.

Companies would apply to the Board for deviated rates, and reductions (or increases) would be permitted if they meet tests of fairness to customers and financial stability for the companies.

While Briscoe expressed confidence the bill, if enacted, would mean substantial rate cuts, some remained skeptical that the so-called high - risk driver wouldn't pay more under it.

Rate deviations on property insurance are permissible under state law and can be implemented by the Board's regulations.

Meanwhile, the House concurred in Senate amendments and sent to Briscoe HB 143 which would authorize $2,500 medical payment and loss - of - income coverage for auto passengers. The coverage would be included in all liability policies unless specifically rejected. Whether the new law would help lower or raise rates was a subject of debate.

MEETINGS LAW SIGNED

Governor Briscoe signed into law legislation (HB 3) to strengthen open meetings and predicted it will bring more "responsiveness and openness" to government. Stiffer fines and a jail term are provided for violators.

The newsman's shield bill to protect confidential sources of information went to conference committee, as expected, and an attorney general's opinion concluded parts of the Senate revision are unconstitutional.

A Senate committee version of a new lobby control act was rapped by House Speaker Price Daniel Jr. as a "step backward" and by "Common Cause," the people's lobby, as "a joke." Changes were predicted after critics said the Senate panel bill is weaker than the 1957 act.

The Senate, meanwhile, passed another of Daniel's so-called reform bills prohibiting "legislative bribery" in exchange for support of a candidate for speaker.

JOB DISCRIMINATION

Minority group members who work for the state generally hold lower - paying jobs, even though their employment level has improved somewhat, Texas Legislative Council reported in a new survey on ethnic groups in government.

The Council found the percentage of Negroes working for the state has risen from 9.20 per cent of the total number of employees five years ago to 10.09 per cent, and the percentage of state employees with Spanish surnames from 7.8 per cent, and the percentage of state employees with Spanish surnames from 7.8 per cent in 1968 to 9.02 per cent in 1972. Blacks comprise about 12.5 per cent of the state population and Mexican-Americans more than 18 per cent.

A group of legislators, responding to the report, scheduled a series of meetings with state agencies which they claimed demonstrate "discriminatory employment practices" directed against blacks, Mexican-Americans and women.

Department of Public Safety officials told the legislators they may begin recruiting women law enforcement officers and that they are doing their best to hire qualified minority group members.

COURTS SPEAK

A Tyler youth fined after being arrested in a nude swimming incident won a reversal in the Court of Criminal Appeals.

The same Court reversed the conviction of a Dallas underground newspaper editor on charges of interfering with a policeman during a park disturbance.

The Supreme Court held a Silverton man is entitled to $3,000 damages for tornado loss of household goods though the insurance policy on the house he resided in was in the name of his employer.

The Third Court of Civil Appeals directed Temple Independent School District to reinstate a dismissed school teacher as ordered earlier by Education Commissioner J. W. Edgar.

Moscow Going Underground

By Vincent Buist

MOSCOW

Moscow's city fathers plan to meet the challenge of the motoring age -- and any worse challenge that might arise -- by ~~gling~~ deeper underground.

To cope with tens of thousands of new drivers surging on to the city's crowded roads in the 1970s motorway tunnels are to be constructed.

These will be hollowed out beneath the city center, duplicating the main arterial system above the linking up eventually with bypass motorways.

The main aim is for drivers to reach any part of the capital within 30 minutes.

Additionally, underground parking spaces, garages and other services will be installed many yards below the surface.

Staff members of 18 Moscow institutes are now poring over drawing board projects to move warehouses, refrigerating plant, exhibition halls, swimming pools, cinemas, restaurants and food markets underneath Moscow, according to official Soviet reports.

Planners have given themselves 15 years to complete all these major extensions of underground life in the Soviet capital.

The whole scheme will be concerted with present moves to stretch the Moscow Metro -- underground train system -- from its present 97 to 200 miles.

The new subways are to be deep lying channels, far beneath everyday life on the surface. They could be used as atomic shelters in the event of a nuclear attack.

Some new apartment houses rising up along the Moscow skyline are equipped with deep basement shelters and strong steel doors, according to visitors.

Essential enterprises in or near the capital have even deeper, better protected atomic shelters, according to reports.

In World War Two the Moscow Metro, as in London, Paris and Berlin, became a refuge for city dwellers from bombing raids and -- in the case of the Muscovites -- also from siege shelling.

But in tune with the generally relaxed official atmosphere here city officials, when they talk of deep lying new metro lines, do not link this with any precautions against nuclear strike damage.

Recently the mayor of Moscow, Vladimir Promyslov, talking about city traffic problems, told interviewers that deep metro lines could be laid just as cheaply as shallow lines.

He gave an assurance that the Moscow underground -- probably unique in this respect -- does not intend to raise its price for an underground ride although, since its opening in the 1930s track lengths have multiplied over 10 times.

Not only is this held to be the lowest metro fare in the world -- on the cleanest system in the world -- but it also makes a profit for the city.

The Moscow Metro transports more than four million passengers and at peak travel periods it is so crowded that, according to local legend, you do not really need to walk up the staircases -- you get carried along in the crush.

Bentsen Sponsors Energy Bill

Research is needed for meeting the nation's energy needs, according to Sen. Lloyd Bentsen, reporting in his weekly newsletter about legislation he is co-sponsoring.

"The bill would provide the necessary impetus to make sure that we make full use of all of our abundant, domestic sources of energy," Bentsen said.

Its goal would be to allow the United States, by 1983 -- 10 years from now -- to provide for all her energy needs from domestic sources that are environmentally acceptable, he added.

The legislation would provide the necessary mechanism to establish a coordinated, national program of energy research and development. It would pull together the many far - flung studies now underway, eliminate those that are repetitious and amend those that are working at cross - purpose.

SHARP - TRACY - FRIENDSHIP

By Mrs Leroy Guillote

Visitors of Mr. J. W. Pope were Mr. and Mrs. James Pope and Curtis Rhodes of Temple.

Mr. and Mrs. J. T. Shelton drove to East Texas Saturday and bought shrubbery selections for landscaping.

Friendship sick list this week were Don Pruitt, Marcel Walker and Mr. Sutton. Mr. Sutton was stricken very ill and a Marek-Burns-Laywell ambulance and the fire department out of Cameron was called.

Mrs. Rome Shelton's granddaughter, Cathy Bowen, shows no improvement in her condition. She is taking treatments in the M.D. Anderson Hospital in Houston. Cathy lives in Houston.

Miss Linda Coffman and her friend, Allyene Yates of Dallas spent several days with Mr. and Mrs. Howard Coffman. The girls and Mrs. Coffman spent a day in Austin with Mr. and Mrs. Jimmy Coffman and children.

Miss Agnes Rinn accompanied Linda and Allyene and Mrs. Coffman to Houston where they spent the weekend with Mrs. Malitta Galler. They also visited Charles Galler and Mr. Jim Enax and Mr. and Mrs. Bill Daniels of Spring.

Mr. and Mrs. Odell Charles of Austin spent the weekend with Mrs. Wavy Charles.

Mr. and Mrs. Bill Roesler and David attended the wedding of their nehpew, son of Mr. and Mrs. Charles, of Irving.

Mrs. Ruth Caffey and Mr. and Mrs. Willie Schwartz drove through the hill country Sunday, Burnet, Marble Falls and Johnson City.

They enjoyed lunch at Hof-Brau Inn, near Marbel Falls. They also attended an art show in Marble Falls.

Miss Susan Abel of TU, Austin and Dr. and Mrs. Henry Abel Jr. and son of Pearland were weekend guests of their parents, Mr. and Mrs. Henry Abel. They were with their folks for Susan's bridal shower, which was held in Rockdale.

Area guests were Mrs. Loham Davis, Mrs. Rufus Graves, Mrs. Lannis Petty, Mrs. George Hoesch, Mrs. Ernest Backhaus, Annie Abel, Mrs. Ruth Caffey, Mrs. Willie Schwartz and Mrs. Henry Abel.

Your Serviceman —

E. WESLEY JR.

THAILAND

Staff Sergeant Ezackrie Wesley Jr., son of Mr. and Mrs. Ezackrie Wesley Sr. of Cameron, is a member of the Thailand-based organization that has been selected as the best communications-electronics unit in the U. S. Air Force for the second time in three years.

Sergeant Wesley is a communications supervisor with the 1974th Communications Group headquartered at Udorn Royal Thai Air Force Base.

The group, which earned the award for the first time in 1971, received the third annual Major General Harold M. McClelland Award named in honor of the late general who pioneered worldwide communications efforts in the early 1930s.

The 1974th provides communications and air traffic control service in Thailand for Air Force units and other governmental agencies.

Sergeant Wesley is a 1962 graduate of O. J. Thomas High School. His wife, Rosetta, is the daughter of Mr. and Mrs. Johnnie Rosemond of Rt. 2, Cameron.

Obituaries

Lengert

Mrs. Otto Lengert, 98, a resident of Rockdale for the past 82 years, died early Thursday morning in a Rockdale hospital after a long illness.

Funeral was at 4 p.m. Friday at Phillips and Luckey Funeral Home, the Rev. F. T. Sager of Brenham officiating. Burial was in the IOOF Cemetery.

Mrs. Lengert was born Annie Diehl August 25,7 4 in Germany. She came to Houston as a small child and to Rockdale when she was 16. She was married to Otto Lengert in 1895 in Rockdale. He died in 1935 and a son, E. O. Lengert in 1959. She was a member of the Lutheran Church.

Surviving are a son, E. R. Lengert of Dallas; two daughters, Miss Margaret Lengert and Mrs. Ruby Hutton both of Rockdale and several nieces and nephews.

Woytek

Mrs. Ludmila Woytek, 68, of Cameron died Thursday in a local hospital.

Funeral was held at 10 a.m. Saturday at St. Monica's Catholic Church, the Rev. John Geiser and the Rev. William Benesh officiating. Burial was in the church cemetery.

Rosary was recited at 7 p.m. Friday at Marek-Burns-Laywell Funeral Home.

Mrs. Woytek was born in West and had lived in Cameron for the past 18 years. She was a member of the KJZT Lodge 48 of Cameron.

Surviving are two sons, Benard Woytek of California and Maurice Woytek of Cameron; two daughters, Mrs. Marcella Malcik of Temple and Mrs. Mary Hall of Houston; three brothers, Louis Ondrej, August Ondrej and Joe Ondrej all of Penelope; and 14 grandchildren.

Market Report

There were 275 cattle and calves consigned to the Cameron livestock auction Thursday, compared with 221 last week and 840 last year.

Slaughter cows and bulls steady, all feeder classes fully steady, however not enough cattle on hand to fully establish market trends. Demand was good, and run included around 15 percent slaughter cows and bulls, remainder mostly feeders.

Slaughter cows, utility and cutter 30.50 to 36.75. Slaughter steers and heifers good and choice 44.50 to 47.50. Feeder steers choice 67 to 73. Feeder heifers good and choice 44.50. Feeder steers choice 67 to 73. Feeder heifers good and choice 54 to 61.

Hog receipts totaled 485 with barrows and gilts mostly 2.50 lower, sows fully steady.

US 1-2 barrows and gilts brought 33.90 to 34.60. Sows US 1-3 brought 30 to 31.90.

Hovercraft Inventor Works On Propulsion System

By Peter Mosley
Reuters Science Editor

SOUTHAMPTON

From the windows of his modest house by the seashore, Sir Christopher Cockerell watches the big ships go by and quietly rages at bureaucrats and small-thinkers.

Just occasionally his eyes light up and he points with his pipe at a passing Hovercraft. For Sir Christopher invented the Hovercraft, hailed by many as the most significant development this century in marine transportation.

Today, at the age of 62, he is mostly shunned by the industry he founded.

A series of policy disagreements forced him to quit first as technical director and then as consultant to the government - financed Hovercraft Development Limited.

Since the final link was severed almost three years ago, Sir Christopher has retreated to his home in the village of Hythe, overlooking Southampton water -- gateway to this major British port.

But he has also built himself a workshop-laboratory next door. And there, with a little help from his friends, he is working on what may be the next big breakthrough in Hovercraft -- a propulsion system that would permit the building of giant hover-liners.

The inventor -- a title that makes him cringe "a terrible dirty word. I'm an engineer. People think inventors are scatty" -- is reluctant to give details of his latest work.

But he says it is recognized that air propellors, although adequate for the present generation of comparatively small Hovercraft, would not be suitable for a transatlantic craft.

"You couldn't make them big enough. You can't get hold of enough air to push it along. So you've obviously got to go to water propulsion to propel the air cushion."

Asked when he expects to produce results, he says: "I hope to get something running this year."

Even so, he is pessimistic about the outlook for British Hovercraft.

"In another 10 years," he warns, "we will be buying Hovercraft from the Americans and spending precious foreign exchange."

"There's nothing much going on (in Hovercraft development) nin this country --except here."

Back in the late 1950's, when his idea for ships and even land vehicles traveling on a cushion of air was the hottest thing around, Sir Christopher (then plain 'mister' -- he was knighted in 1969) regularly rebuffed approaches from overseas, including the United States.

"I did it on patriotic grounds. It sounds silly nowadays but that's my generation."

Now, he admits, he is "getting tired." The politics and the constant battle for research funds have exhausted him.

But he still feels stirred to action over such matters as the high-speed Hovertrain project, recently axed by the British government, and the channel tunnel from England to France, whose prospects have increased considerably in recent years.

He sees the Hovertrain cancellation as a vain attempt to turn back history, and the tunnel fervour as "pedestrial thinking... simply no imagination."

When he first got the Hovertrain notion moving, in 1961, Britain was far ahead in this field, he says. But the government - supported development made very slow progress.

"I don't know how they spent all that money (about 10 million dollars) and got such a little way." The United States, France, West Germany and Japan had now stepped in and were making good progress, and the Hovertrain "is going to come."

"In 1910 they had 100 - mile - an - hour trains. So nothing's happened. You've got to do a breakthrough, not fiddle about with a few miles an hour. Something that really rips. Throw away all the existing stuff and start afresh, look at all the possibilities."

Sir Christopher wrote letters in support of the Hovertrain project, but it was still abandoned.

He is worred that his voice will be similarly ignored over the channel tunnel. The very concept is so limiting, he feels. Nobody considers what the problems will be 100 years from now, when a tunnel could well be totally inadequate for the traffic.

A bridge is a far better idea, he says. Additions such as a Hovertrain track could be built on it when needed--kinks and undulations would rule out a tunnel Hovertrain.

But even a bridge is not necessary yet, if the cross-channel Hovercraft is fully exploited. Already it is the fastest crossing -- faster than a tunnel would be -- and carrying some one million passengers and 200,000 cars a year.

"We must stop this tunnel," he declares.

It is the same sort of forthright, uncompromising stand that cost him his job with Hovercraft development -- "a very painful time" that he will not discuss now.

Could it be that he just too scathing with the civil servants? "Well," he says "there are some absolutely first class civil servants but the machine only allows them to think departmentally.

What's In The Giant Easter Egg At Woodum Mobile Homes.

TIC Plans Guide To Minority Owned Businesses

AUSTIN

Plans to compile a Buyer's Guide to Minority - Owned Businesses in Texas have been announced by the Texas Industrial Commission's Office of Minority Business Enterprise.

The guide is one of several projects the OMBE has developed since it was established last year to promote minority owned business in Texas.

When completed, the special guide will be available for corporation buyers and state and federal purchasing agents as a handy reference to Texas' minority businessmen capable of bidding on specific projects.

"Many government agencies and private corporations have developed programs to stimulate minority owned business growth, but they have had difficulty identifying and reaching the minority owned business," Jesse Martinez, OMBE director, said. "The buyer's guide will provide these agencies with a source of firms capable of taking on contract and subcontract opportunities."

Martinez urged minority manufacturers, construction contractors, whole salers, consultants and service companies who would like their firm listed in the guide to forward their company name and address to the Texas OMBE Information Office, 1711 San Antonio St., Austin, Texas 78701.

When completed, copies of the guide will be forwarded to corporation buyers and state and federal purchasing agents.

DRAIN HEATER

At least once a month, open the water heater's drain valve and drain off 1-2 quarts of water. This rids the heater of mineral sludge accumulation, explains Lynn Bourland, home management specialist, Texas Agricultural Extension Service, Texas A&M University.

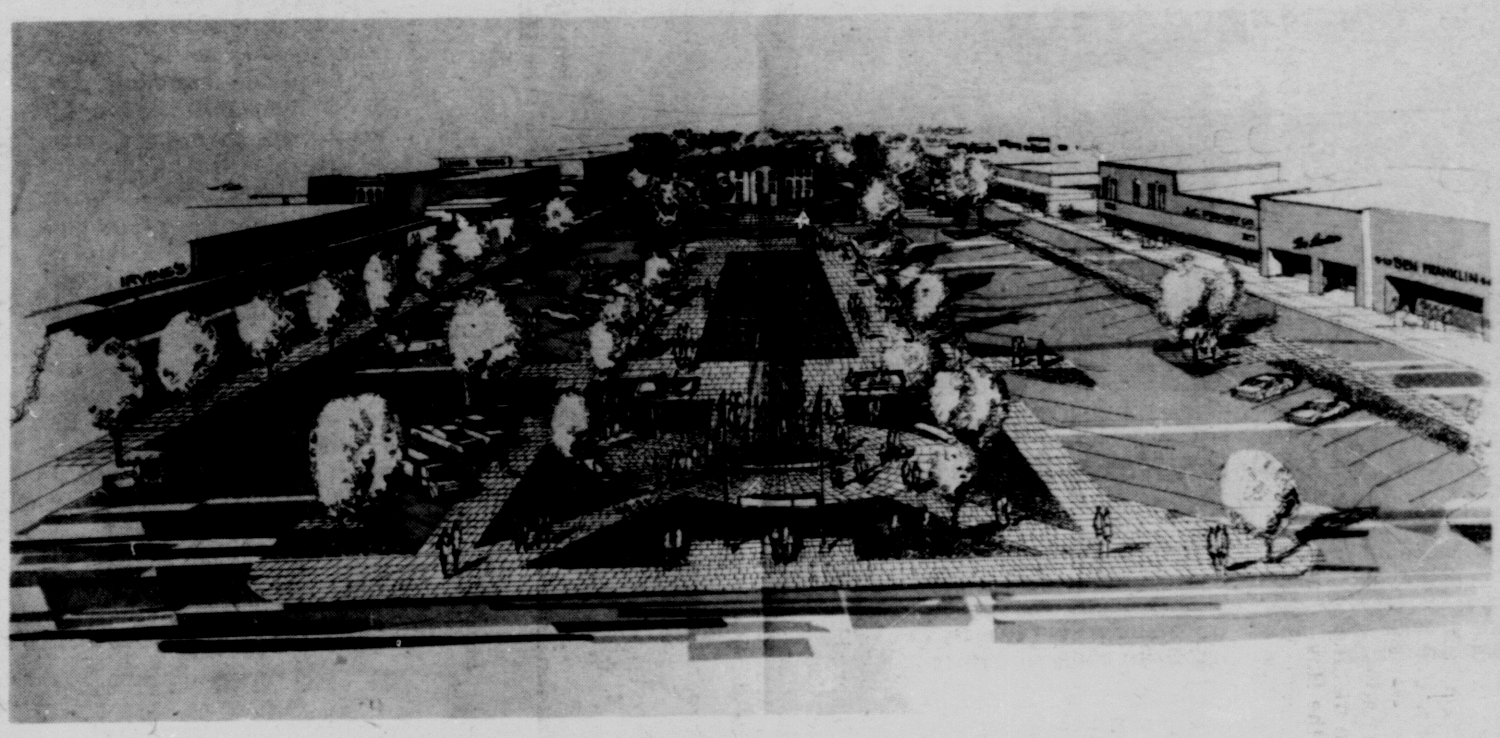
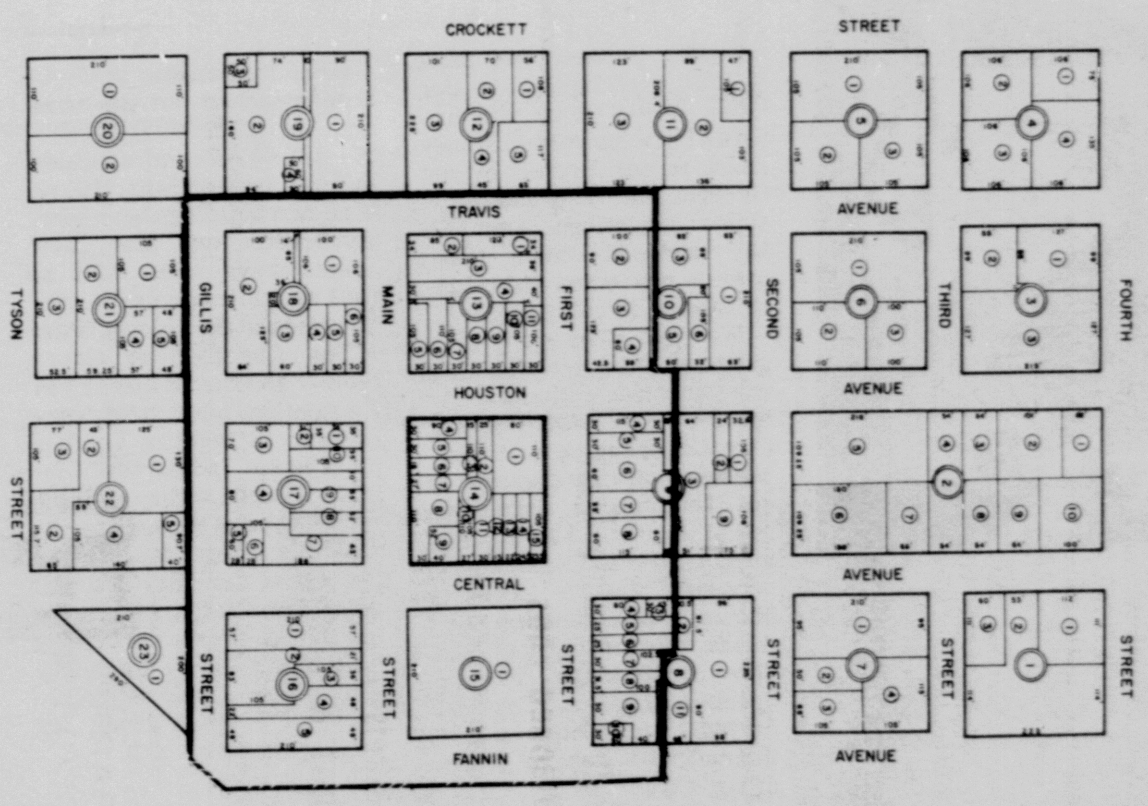
AnnualReport...Cameron Urban Renewal Agency 1972



Mall Area 1973

Streets, Sidewalks And Curbs Due In Project Area

The Project Area consists of six full blocks and three half blocks in the central business district. New streets, sidewalks, and curbs will be installed in the greater part of this area, as well as new and larger water mains to provide better fire protection and make possible a better insurance rate for all Citizens. Many utility poles will be removed and some relocated in order to better align our streets and improve the appearance of our City. The Texas Power and Light Co. and Southwestern Bell Telephone Co. will go joint construction using the same poles where possible to help in removing poles from our streets. The Lone Star Gas Co. will install new gas service lines from the mains to the buildings. The storm drainage will be improved by adding new inlet grats and relocating some of the present inlets. Gone forever will be the 30 and 40'' curbs as we will have standard six inch curbs in our Project Area; No longer will you need a step ladder to reach the walk.



Letter To Mayor

March 22, 1973

The Honorable Gene F. Blake
Mayor of Cameron
Honorable Councilmen
Cameron, Texas

Gentlemen:

The members of the Urban Renewal Board and Staff of the Urban Renewal Agency are pleased to submit to you our Annual Report for the year 1972 and '73. We have tried to highlight some of the activities in Cameron the past year which we feel have been significant developments in Cameron's future.

We wish to express appreciation to you and the Council on behalf of the Urban Renewal Board and Staff for your cooperation in carrying out our plans in the past year. What success we have had could not have been possible without your cooperation and also that from the Citizenship of Cameron. We want to assure you it has been a real thrill as we have worked together to build Cameron and in some small way help, we feel, to direct the future.

We of the Urban Renewal Board and Staff look forward to the coming year and the completion of our Project and a more beautiful Cameron.

Respectfully submitted,
URBAN RENEWAL
AGENCY
Miss Mildred Thornton
Chairman of the Board
A. W. McCullin
Executive Director

Change In Attitude

In working together on various committees, dedicated to the new birth of Cameron, we have been astounded by the change in the attitude of our people.

Some of the citizens who were convinced it couldn't happen here are, now, our program's biggest boosters. We have seen a change from ''can'titis'' to ''canitis'' and we believe and feel that Cameron can continue to do whatever we want to do to make our city what we would have it to be.

Cameron is not dead, but is experiencing a new birth for a brighter tomorrow.

Demolition Completed

Demolition has been completed on all buildings and the lots cleared and offered for sale. We still must remove all curbs and walks in the Project Area to complete all Demolition.

We have paid out a total of $7,945.96 for Demolition. We had budgeted for this work an amount of $47,120.-00. The total of this savings is $39,174.04.

Rehabilitation In Cameron

As you look at Cameron, Texas, it is easy to see what has taken place as businesses have cooperated in such a fine way in bringing their property up to standards. The building's faces as well as the faces of our people have changed.

We have had 16 businesses which have completed Rehabilitation and presently have 17 businesses in the process of Rehabbing business. This work must be completed in the rear future so as to comply with requirements of our Program. We hope all Rehabilitation work - painting and clean-up - can be completed before we stage the dedication of the Mall.

City Council

City Council listed from left to right: Standing: Ed Magre, City Attorney, Lawrence Zotz, Lester Hickman, Lincoln Mondrik. Seated: R. M. Clark, Starrett Hickman, Mayor Gene Blake and Buddy Fuller, City Secretary.

Urban Renewal Board

Urban Renewal Board From left to right - Standing: Porter Young, Albert Hajovsky, Ed Magre, Legal Counsel; Seated: James Camp, Vice-Chairman, Mildred Thornton, Chairman, and Dr. George Bowman, not shown are W. N. Burns, and Monroe Fuchs.

Relocation Grant	75,973.48	
Total Capital		292,988.80
TOTAL LIABILITIES & CAPITAL		563,223.74

Bonds Sold

Financing of the Project is done by selling bonds on the open market. Bids for the second year's financing were opened at 10:00 A.M. on August 8, 1972, for the year beginning in September.

We received six bids and the successful bidder was the Citizens National Bank of Cameron. The total amount of bonds sold was $265,000 - with $100,000 at an interest rate of 2.91 and $165,000 at a rate of 2.94. We want to express to them our thanks for this act of confidence in our program and growth of our City.

Land Disposition

Property was advertised and bids opened at 10:00 A.M. on September 20, 1972 at the Urban Renewal Office. The Citizens National Bank of Cameron bought two lots behind the J. C. Penney building, formerly the Grady Houston and Thweatt property, as well as the lot immediately behind Citizens National Bank, 30 x 105', formerly a portion of the Green Property.

Prime Locations Available

We are presently advertising four properties. The bids will be opened at 10:00 A.M. on April 16 at the Urban Renewal Office. All purchasers of property in the Project Area must sign a Redevelopment Agreement to build meeting all requirements of Cameron's building codes and ordinances.

Bid blanks and details will be given at the Urban Renewal Agency at 112 East First Street to all interested persons. We feel all property will increase in value when new streets, curbs, and walks have been installed and the Mall is completed.

The preparation of this report was financed through a federal loan and grant from the Department of Housing and Urban Development under the provisions of Title I of the Housing Act of 1949, as amended.

City Of Cameron Makes Purchase

Miss Mildred Thornton, Chairman, and Mr. James D. Camp, Vice-Chairman of the Urban Renewal Board delivers the Deed to Area 1 and 3 of Block 14 to Mayor Gene F. Blake and Buddy Fuller, City Secretary of the City of Cameron. The City will build parking lots on both of these areas to provide parking for our visitors and Citizens. The Mall will be built in the center area and dedicated to the City on Completion of the Project.

The Action Year

We completed acquisition of all properties necessary to acquire in our project area and have paid out, for acquisition, a total of $175,-767.00.

Since the beginning of our project, we have relocated twenty-one businesses, eleven warehouses, five businesses discontinued operations, and one loss of business payment was made. The relocated businesses have been moved to up-graded, rehabilitated buildings and, in some cases, to new buildings. We have paid these businesses for moving expenses, loss of business, or payment in lieu of moving expenses, making a total of $78,625.39. This payment was to take care of all relocation costs by the business, and the payments made before July 1, 1972, were made from a grant from the Federal Government and not shared by our City.

Progress On Mall

All engineering has been completed, the mall area is cleared, and is now ready for new development. Involved in the planning have been many committees, comprising a cross-section of our people, from all age groups and ethnic groups. We hope the mall will become a center of rest, relaxation, and enjoyment for all our citizens. It has been planned for a staging area, to provide a location for many activities, with a fountain, benches, trees, shrubs, and ground cover, to provide a place of beauty in the center of our city. On either side of the mall will be parking areas for our customers and visitors. The completion of the mall is our Number 1 priority.

The City will build the mall and parking lots for credits. Two-thirds of the area has been purchased by the City for parking. The other third will be dedicated to the City upon completion of the project.

Cooperation Plus

The Urban Renewal Board and Staff wish to express their appreciation to the Cameron Herald for its up-to-date news concerning our Program as well as to K M I L for their cooperation in keeping in contact with the Citizens of Cameron. Also appreciation is extended to the members of the Grievance Committee which acts as a liaison between the Citizenry and the Board to solve problems in our City.

The interest displayed by various organizations which have had special programs and guest speakers on the Urban Renewal Program in Cameron has helped keep the Citizens informed.

Urban Renewal is a program for all the people of Cameron and strives to carry out the desires of the majority of the community. Because of this understanding and cooperation of our people, Cameron has been asked along with 129 other towns to participate in an Annual Arrangements Program. A Planning Commission was appointed by the City Council and represented all people in Cameron. After a Town Hall Meeting and various Committee meetings, this Commission presented the Department of Housing and Urban Development with their priorities for the first Action Year of the Annual Arrangements Program.

The Citizens of Cameron, Texas are to be congratulated in their efforts to make their City a better place to live and shop.

Urban Renewal Staff

The Urban Renewal Staff consists of A. W. McCullin, Executive Director, A. E. Matula, Rehab-Reolocation Officer, Mrs. Roman Lehnert, Bookkeeper, and Mrs. Marvin R. Young, Jr., Secretary.

Contribution Of Urban Renewal

Urban Renewal has made a real contribution to our City. It has made the impossible possible. Money spent in our Project by our Government represents a sound investment and will pay dividends many times over in new taxes and greater income in our Area.

We feel Cameron is a good example of what can be done through cooperation of the Federal Government, City Government, and Citizenship working together to get the job done. Urban Renewal has released new money in our Community's economy through property acquisition, relocation payments, Rehabilitation, and new construction. The increase in Sales Tax received by our City is a good indication of healthy growth of our City.

Building Permits

Building permits in Cameron reached an all time high in 1972 totaling $1,-271,441.00. Permits issued in 1971 totaled $461,413.00. Nine new buildings have been constructed and many new homes have been built as well as a number under construction at the present time.

The Chamber of Commerce and the Industrial Foundation have been successful in locating another plant in our Industrial Park-Style Homes. The untiring work of these two groups has meant a great deal to the growth of our City. We will have four buildings in the Industrial Park, providing jobs and security for many of our people, and helping to provide a solid basis for our continued growth.

Flower Show Depicts Christian Story

Artistic classes in the Civic Garden Club pre-Easter flower show held Wednesday at Cameron Community Center depicted the life of Christ interpreted in creative flower arrangements.

Class titles were: Yield Not to Temptation; Joy to the World, In the Hour of Trial; He Arose; Peace, Be Still; The Least of These.

Mrs. J. E. Crook captured the sweeptakes award with two blue ribbon entries in the artistic division and five blue ribbons in the horticulture division. Mrs. Leo Fuchs received the Award of Merit for her collection of three Wm. Setchel iris. She received five blue ribbons, 1 red ribbon and 1 yellow ribbon in the horticulture division. She also won blue, red, yellow and white ribbons in the artistic division.

Also winning blue ribbons for artistic entries were Mrs. Theo Ashenbeck, Mrs. Bob Clark, Mrs. Milton Falkner and Mrs. W. M. Fanning. Red ribbons were awarded Mrs. Margaret Clark, Mrs. J. A. Bowling, Mrs. Sam Houston, Mrs. Milton Falkner, Mrs. M. H. Wimberly and Mrs. Nelson Green.

Awarded blue ribbons in the horticulture division were Mrs. J. A. Bowling (4), Mrs. Milton Falkner (4), Mrs. W. M. Fanning (3), Mrs. Sam Houston (2), Mrs. Nelson Green (2), Mrs. Bob Clark, Mrs. Alvin Dusek and Mrs. Margaret Clark.

Red ribbons were awarded to Mrs. Margaret Clark (2), Mrs. Alvin Dusek (2), Mrs. Milton Falkner (2), Mrs. W. M. Fanning (2), Mrs. Nelson Green (2), Mrs. Sam Houston (2), Mrs. Bob Clark, Mrs. J. E. Crook, Mrs. Leo Fuchs and Mrs. Robert C. Hudson.

Judges for the standard flower show were Mrs. Gerald L. Ballard, Mrs. Robert M. Kelly, Jr. and Mrs. B. R. Hearn, all of Waco.

Mrs. Milton J. Falkner was general chairman for the flower show. Division chairmen were Mrs. Hugh Wimberly and Mrs. Leo L. Fuchs.

SWEEPSTAKES winner in the Civic Garden Club spring flower show held Wednesday at Cameron Community Center was Mrs. J. E. Crook pictured beside her blue ribbon entry in the artistic division. She was awarded 7 blue ribbons in artistic and horticulture divisions.

AWARD OF MERIT in the Civic Garden Club spring flower show went to this collection of Wm. Stechel iris entered by Mrs. Leo Fuchs. She received five blue ribbons for horticulture entries, blue, red, yellow and white ribbons in the artistic division.

Pilgrimage At Salado April 21-22

The Central Texas Area Museum will sponsor the annual Pilgrimage to Old Salado April 21-22. Five major events included in this year's pilgrimage will include the 14th annual Regional Art Exhibit and Sale, the Antique Mart, Bookshops, Wee Scots Shop and well-arranged exhibits of valuable relics in the Museum of History.

Also featured in the pilgrimage are tours of the historically significant Texas plantation home of the Sterling C. Robertson's and beautiful Twelve Oaks, the present home of the H. C. de Grummonds.

Visiting hours to all events are 9 a.m. until 12 noon and 1 p.m. until 5 p.m. Tickets, which will benefit the museum building fund will be $4 for adults, $2 for students and $1 for children.

Salado was founded in 1859, located on Salou Creek, was founded in 1859 and built around Salado College, a school that pioneered education on a raw frontier. It is one of the earliest towns in Bell County.

Church Sets Revival

The Trinity Baptist Church has set a revival for April 18 through 22 with services starting at 7 p.m. each evening.

Rev. Fritz Pratt of Cameron will be the evangelist and song service will be led by Bailey Jones of Rosebud.

Rev. Carl R. Nelson, pastor of Trinity, invites the public to attend the services.

$10.95 (plus tax) per 100
THE CAMERON HERALD
108 E. 1st St.

Law - Hall United In Ceremony

Miss Lyndia Patricia Hall and Mr. Samuel William Law, III of Houston were married March 18 in the Ephesus Baptist Church at Cary, North Carolina, Rev. L. M. Woolweaver officiating.

The bride is the daughter of the late Mr. and Mrs. J. T. Hall of Raleigh, North Carolina. She is a graduate of Wake Forest University and is empployed by Bank of the Southwest in Houston.

Mr. Law is the son of Dr. Sam W. Law and Mrs. Julia Pettigrew both of Houston and grandson of Mr. and Mrs. C. R. Law of Cameron and the late Mr. and Mrs. H. D. Maxwell of Rockdale. He is a graduate of Rice University and is presently attending Baylor College of Medicine at Houston.

MRS. SAMUEL WILLIAM LAW III

The bride wore a formal gown of white lace with empire waistline, seed pearls outlined the neckline. She carried a bouquet of mixed spring flowers and wore the pearl necklace worn by Mrs. C. R. Law in her wedding 53 years ago.

Honor attendants were Mrs. Warren B. Lagnston of Cary, N. C., sister of the bride, and Mr. Richard M. Law of Houston, brother of the groom.

Ushers were Mr. Doug Pettigrew of San Antonio, Mr. Sherman Law of Houston, Lt. James Nutt and Lt. Peter Madeo, both of Fayetteville, N.C.

A reception was held in the church fellowship hall.

Following a wedding trip in the mountains of North Carolina, the couple will make their home at 4025 Milton, Houston.

Pack Meeting

Cubscout Pack meeting for Cameron will be 7 p.m. Monday, April 16, at the Methodist Fellowship Hall. This date will also be the last day for pre-registration.

What's In The Giant Easter Egg At Woodum Mobile Homes

Built-In Buffet Benefits Dining

A dining room buffet for serving and storing dishes, linens and silver can be built in, adding a custom look to the room.

Simple box construction of 2x4-inch western wood is framed in any dimension, to suit proportions of the room and amount of storage space desired.

Louver wood doors offer full access to the storage shelves and may be stained or painted to complement the room decor.

Engagement Announced

Mr. and Mrs. Dennis Whitte of Bellville, Texas, have announced the engagement and approaching marriage of their daughter, Susan Dyan, to Mr. Melvin Dell Young, son of Mr. and Mrs. L. D. Young of Tulia, Texas.

Miss Witte is presently a teacher in the Cameron Public Schools. Mr. Young is employed by Texas A&M University in College Station and will receive his masters degree in August.

The wedding will be solemnized on June 2, 1973, at 7:30 p.m. at the St. John Lutheran Church in Bellville.

WITTE - YOUNG

Books Make Easter Nest Treat

COLLEGE STATION

Easter rabbits may give books this holiday.

"A child's book -- or children's poetry -- instead of all sweet treats or colored eggs" would make a different Easter nest for children and grandchildren, according to Dorthy Taylor.

The family life education specialist, Texas Agricultural Extension Service, Texas A&M University, discussed children and their books.

"Lifetime pleasure in good books comes from the repeated discovery that reading -- many kinds of reading -- can bring satisfaction," she noted.

"Each story, poem or book adds new dimension to the meaning of reading pleasure and strengthens a child's desire to read further."

The specialist admitted that helping a child learn to find books pleasurable and beneficial "may sound like an ivory-tower objective--and in a sense it is." However, certain practical steps bring the goal within the reach of every parent and grandparent, she added.

"Know each child -- his interests, anxieties, hopes -- and help him find books that are related."

If he likes to "do things" give him a scratch - and - sniff book like "Little Bunny Fqllows His Nose," Miss Taylor suggested.

If he's interested in imaginary or exicting things, other Easter selections could be "The Little White Rabbit Who Wanted Red Wings" by Dorothy Aldis or "The Tale of Peter Rabbit" by Beatrix Porter.

Three additional possibilities are "The Egg Book" by Margaret Brown, "The Egg Tree" by Katherine Milhous and "An Egg Is For Wishing" by Helen Kay.

"Givers of children's literature should be aware of what is new, available and appealing to children. Librarians, teachers and book store owners usually are most willling to offer guidance," the specialist continued.

"Make reading to children a fun activity -- not a 'pill before bedtime' event or forced quiet-time. Read at a leisurely pace the amount the child seeks," she concluded.

Life Jacket Requirements Are Changing

AUSTIN

Boat owners planning to shell out hard cash for safety equipment had better take a look at new requirements from the U. S. Coast Guard effective Oct. 1, according to Texas Parks and Wildlife Department officials.

The new rules won't affect boat owners with boats under 16 feet long, but owners with larger boats may have to resupply their stock of life preservers, or, as the Coast Guard now calls them, Personal Flotation Devices (PFD's).

According to the Coast Guard, 67 percent of the U.S.'s boat owners will be unaffected by the rule changes.

PFD's have been categorized into four types:

--Type I must be designed to turn an unconscious person from face downward in the water to vertical or slightly backward. It must have more than 20 pounds of bouyancy and be designed to be worn.

--Type II must meet the same requirements as Type I, but it must only have at least 15.5 pounds of bouyancy.

--Type III is any approved device designed to keep a conscious person in a vertical or slightly backward position and to have at least 15.5 pounds of bouyancy. Although the Type III devices have the same bouyance requirements as Type IIs, the less stringent turning requirements allow a more comfortable and wearable device for those likely to enter the water.

--Type IV is any approved device designed to be thrown to a person in the water. It must have at least 16.5 pounds of bouyancy. This type is not designed to be worn. The most common Type IV PFD is the bouyant cushion.

The new Coast Guard rules require that each device be marked by the manufacturer as to type.

All presently approved lifesaving devices now acceptable by the Coast Guard fall into one of the four PFD classifications.

On recreational boats less than 16 feet in length and on canoes and kayaks, all four types meet Coast Guard requirements.

However, in all boats 16 feet or longer, except canoes and Kayaks, there must be a Type I, Type II or Type III PFD on board for each person. Type IV devices will not fill the requirement for this length of boat after Oct. 1.

On recreational boats 26 feet or longer, there must be one Type I, Type II or Type III PFD on board for each person. In addition, there must be a Type IV aboard immediately available for use.

The reason for this is because the bigger boats are less maneuverable than smaller recreational boats and have in general, higher freeboards which makes reboarding more difficult.

YOE BASEBALL '73 - Greg Sheguit receives congratulations from his team mates after making a homer during a game on April 10. The boys defeated Gatesville 9-0 in that tilt.

SAVE THE MOTOR

Small appliances, like hand mixers, are designed to do light-weight jobs best. Use them for heavy jobs and the motor will burn out, says Lillian Cochran, home management specialist, Texas Agricultural Extension Service, Texas A&M University.

Students Receive Grants

Milam County has three residents attending Southwestern University with the help of state-sponsored Tuition Equalization Grants.

The students are part of a program instituted by Senate Bill 56 passed by the 62nd Texas Legislature in 1971.

It provided for a maximum annual grant of $600 per student to freshmen beginning in the fall of 1971, freshmen and sophomores last fall; to freshmen, sophomores and juniors next fall and all students attending accredited independent institutions in the fall of 1974 and thereafter.

The grants are awarded to students through the colleges and universities by the Coordinating Board, Texas College and University System, based on enrollment of Texas student in each institution.

Statewide, the Tuition Equalization Grant Program awarded about $1 million to assist 2,511 freshmen in the 1971-72 school year and $3 million is currently assisting approximately 6,000 freshmen and sophomores during the current academic year.

The economics involved in the grant program are simple. It presently costs the state an average of $1,200, annually to educate a student in existing public education facilities. This is twice as much as the $600 authorized in the TEG program.

Spring Sports Continue At Yoe, Junior High

Spring sports are continuing at Yoe High with baseball and at Junior High, with a district tennis meet coming up May 12 for younger sportsmen and a match scheduled Thursday.

Girls volleyball is over, with a 5 win, 7 loss record for the varsity team, which includes Rosemary Eickenhorst, Pat Donalik, Renee Sommers, Linda Borgas, Rebecca Riola, Stacey Hunt, and Dianne Vansa.

In Yoe High Track, the season was over after a district meet at Belton April 6.

Gary Thweatt won the 100 and 220; Pedro Canizales won the mile run; Willie Bell won fourth in broad jump; and Yoe's relay teams were disqualified for dropping the baton.

The Yoe golf team also entered a district tourney and placed 11th. This was the second tournament the team entered.

In junior high tennis action results were:

Marilyn Yount defeated Mary Margaret Chandler 8-6; Waylon Allen defeated Peter Riola 8-3; Clay Kruse defeated Wendel Mateuse 10-8; Cathy Green defeated Kathy Huffman 8-6; Richard Raymond and Gary Heitman defeated Terry Francine and David Young 8-1.

In other doubles David Raymond and Steven Hollas defated Alan Juergens and Jimmy Cox 8-4; Leslie Claypool and Jeanine Meyer defeated Jeanie Smith and Marilyn Young 8-1; Shelley Heintze and Cathy Cooke defeated Ken Fritz and Linda Matyastik 8-7 in a tie breaker.

The tennis teams will play Rockdale Thursday at the Yoe High courts.

Abnormal Winter Weather Damages State Highways

Abnormal weather conditions during the winter 1972-73 resulted in approximately $28.4 million damage to highways throughout the State. Some late-developing damage may be disclosed later.

A survey just completed by the Texas Highway Department indicated that extensive freeze-thaw damage was reported virtually throughout the State. In addition, two Districts--Pharr and Beaumont -- reported extensive wet weather damage approximating $850 thousand and $900 thousand, respectively.

Reports of damage in the Department's 25 Districts ranged upward to $10 million in the Amrillo District. Each Highway District is comprised of approximately 10 counties.

Estimates of the more extensive freeze - thaw damage in some representative Districts included:

El Paso, $2.1 million; Fort Worth, $1 million; Lubbock, $1.5 million; Abilene, $6.5 million; Amarillo, $10 million; Waco, $1.4 million; Austin, $1.2 million; Bryan, $950 thousand; Odessa, $700 thousand; Lufkin, $750 thousand; Corpus Christi, $600 thousand; Lufkin $750 thousand and Brownwood, $900 thousand.

Extent of winter damage will result in some other highway construction projects being deferred to complete the weather - induced repairs to prevent more extensive loss.

Bid Opening Set For Hospital

Final plans for the new King's Daughters Hospital in Temple have been approved and have gone out for bids, R. L. Epperson, hospital administrator, annouced Saturday.

The bid opening has been scheduled for 2 p.m. Thursday, May 3, 1973, in the Conference Room of the Temple Chamber of Commerce Building, Central Ave. and S. 5th Street in Temple.

Cost estimates on the 100-bed hospital project total $4,250,000 for building and equipment. Construction is expected to start as soon as contracts are signed, or about two weeks after the bid opening, Epperson said.

A public groundbreaking ceremony will be scheduled for that time.

The new hospital, to be built on a site just south of the South Loop and west of S. 31st Street in Temple, will be completed in 18 to 24 months after start of construction.

Epperson said that final approval on plans was received recently from the State Department of Health and the Dallas Regional Office of the U. S. Department of Health, Education, and Welfare.

Johnny Mann Elected At Huntsville

Johnny Mann, a 1970 graduate of C. H. Yoe High School and the son of Mr. and Mrs. Wayne Mann, was elected to the Sam Houston State University Student Senate this past week in Huntsville.

Johnny is classified as a Junior and is majoring in Health Education at the University. As a student senator, he will represent the Department of Education as well as all students on campus as their voice to the administration.

Friar Society Accepts Women

One of the longest all-male traditions at The University of Texas has crumbled.

The Friar Society, which since 1911 has been UT's highest honorary organization for outstanding men students, accepted its first women members this spring. Friar members made the decision after more than a year of consultation with Friar alumni.

Included among former Friar members are three of the last five Governors of Texas.

Calendar Of Texas Events Points To Centennial Time

AUSTIN

It's centennial time in Texas.

The Calendar of Texas Events, issued today by the Texas Highway Department, indicates that the year 1873 was an important one in Texas history. During the April -September period covered by the Calendar, at least eight cities, from El Paso to Texarkana, will ce celebrating their 100th year.

Others reaching that milesone are Terrell, Overton, Mineola, Plano, Weimar and Schulenberg.

One of the state's oldest cities, Columbus, marks its 150th birthday on May 11-20, while Yorktown takes note of its 125th anniversary on April 12-14.

The entire month of August has been set aside to commemorate the 150th anniversary of the Texas Rangers, with activities centered around the Texas Rangers' Fort Fisher in Waco.

As befits a Texas Calendar, there are dozens of rodeos and roping contests, and rodeo fans will have no trouble finding places to follow the sport.

From flea markets to major festivals; from sand sculpture contests to displays of fine art, whatever the traveler's pleasure, he will find it some time, somewhere in Texas.

Copies of the six-month Calendar are available at Highway Department tourist bureaus, or by writing the Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78767.

Award Offered By Farm Bureau

Applications are available now for an achievement award to a senior boy who is a Farm Bureu member family in Milam County. The forms may be obtained at all high schools in the area.

This was one of the topics of discussion at the Farm Bureau board of directors meeting held April 5 with 10 members present.

Also discussed was the State Farm Bureau services and activities, led by Durwood Tucker, area fieldman for Texas FB.

Also announced was a Tractor Pull which will be held in conjunction with Folk Fete. This will be sponsored by the Young Farmers and Ranchers of Milam County, Carl Grothe, chairman for District 8.

Salesman Takes Advantage Of Girls

By Atty. Gen. John Hill

In the spring, a young girl's fancy often turns to thoughts of love, and the high pressure salesman who works from door - to - door can be expected to take advantage of the season.

The Attorney General's Consumer Protection Division already is receiving complaints of being pressured into high-cost contracts for hope chest items, such as cookware and china.

In one instance, the young woman and her roommate had been called on by a door-to - door salesman who claimed to have a superior set of stainless cookware to sell. While the cost for such quality was a bit high, the customer was assured she would be getting more than her money's worth, because she also would receive "free" a four-place setting of china.

As the young prospect began to show signs of weakening under a long (two-hour) high pressure sales pitch, she was offered another bonus in the form of a set of cutlery -- if she agreed to buy the cookware that very day.

After the salesman glossed over the financial features and fine print of the time payment contract, with (according to the customer) a running line of distracting patter and frequent glances at his watch, she signed on the dotted line.

The next morning, she was remorseful -- as so many customers in door-to-door transactions are, and regretted the fact that she had agreed to buy a set of pots and plans for a total of $427.34 -- including taxes and interest charges.

She felt even worse, she said, when she visited a retail store, and discovered she could have purchased the same brand of cookware and the same pattern of china at less than half of the amount she had obligated herself to pay. "I discovered it was a rip-off," she said.

The attorneys in my office immediately recognized that this contract was invalid, because the buyer was under 21 years of age. The cookware and china had not been but the contract had been sold to a lender. After several telephone contacts, the cookware firm agreed to buy the installment "paper" back from the finance company, thus relieving the young woman of any obligation.

But there would have been no relief in sight for the customer if she had been 21 years of age or older. The lender who bought her signed note would have had no obligation to cure her complaints.

So, there would have been no happy ending. The customer would have had to pay out the $427.34 note-- even if the goods were not what she had expected; even if they deteriorated rapidly.

The moral to that story and to most of the complaints of misrepresentation and exaggerated promises by door-to-door sales persons, is that the homeowner who answers that knock on the door should be extra cautious about 1) admitting the salesman in the first place; 2) listening to the sales spiel unless it relates to a product the resident knows about and wants, and 3) signing a contract on the spot.
